

Brent Sigmon, PE

Education: BSME – University of North Carolina @ Charlotte in 1997
 MBA – East Carolina University in 2006

Experience:

Brent is a Sales Manager for Industrial Applied Chillers at Carrier Corporation, a division of United Technologies Corporation (UTC). He focuses on large chiller sales, each ranging from 3,000 to 5,000 tons for global district energy plants. He also performs various presentations for Carrier at engineering and marketing events as a speaker on both chillers and chiller systems. His experience at Carrier includes being a Product Manager of water-cooled chillers, a global product manufactured in Charlotte, NC and as an Applied Equipment Sales Manager for a Carrier direct sales office. He started with Carrier in 2007. Prior to Carrier, He worked as a design engineer and project manager in the HVAC industry. He has experience in both the design and installation of HVAC equipment for various industries. He completed his Professional Engineering (PE) certification in 2002.
